Business Systems Analysis Certificate

BA-03: Requirements Communication Course

The course is a hands-on one where you use a case study and Reqmaster templates to write a requirements package. Valuable detailed requirements templates, such as Business Requirements, System Requirements, and Impact Analysis templates; and checklists are offered free of charge with this course.

Prerequisites: Fundamentals of Business Analysis and Requirements Analysis

Duration: 9 hours

Outline

- Preparing the Requirements Package
- Templates walkthrough
- Modernizing the requirements products
